I'm Asher Alley, a front end web developer located in Albany, Auckland. I recently made the switch to web design and development after falling in love with coding, and the process of building a website from original concepts through to unique, user-friendly sites. I am looking for a full-time job in web development that allows me to challenge myself, broaden my knowledge, work in a team of like-minded individuals, and gives me the opportunity to create modern, innovative websites that are easy to use.

Experience

Veratech Web Solutions
